## **ASX & MEDIA RELEASE**

### **PROJECT DISCUSSIONS**

Diversified, renewable energy company, CBD Energy Limited (ASX: CBD), confirms it is in advanced discussions regarding a number of renewable energy projects.

This relates to projects in Europe, Thailand, Australia and China.

At this stage none of these discussions have been finalised to the extent that contracts have been signed which would add an element of certainty to them.

Some of these projects are of considerable size and all involve CBD being involved with partners to initiate and complete the projects.

As examples of project size, projects in Italy and Thailand may in total amount to A\$60 million in revenue for initial components of development.

CBD has previously advised the ASX on 16 May 2010 that, jointly with Chinese companies, Tianwei Wind and China Datang Renewable Power Co. Ltd, it is considering development of in excess of 800MW of renewable energy projects.

These projects will be in Australia and China.

Further information will be provided to the ASX as agreements in relation to these projects are signed.
