Explanation of Operating Cash Flows for the quarter ending 30 June 2009

During the quarter ending 30 June 2009 the consolidated entity had a net operating cash outflow of \$1,025,277.

Cash flows have been affected by expenditure incurred on the commencement of the Chatham Island Project, presenting our storage technologies to international markets including relationship development and engineering work on the China Solar Thermal Project. Scheduled receipts from these projects and initiatives will begin to have a positive impact on cash flow by the first quarter of 2010.
